WORK EXPERIENCE (4)

Full stack developer at Frontrol Technology

Jan 2023 - Present

📍 Pune, (India)

[ReactJs](#) [NodeJs](#) [TypeScript](#) [AI/ML](#) [Agile](#) [Testcases](#)

Frontrol Inc., is creating collaborative project execution and control on a unified platform

- Spearheaded frontend architecture using modern JavaScript frameworks, enhancing application performance and responsiveness.
- Collaborated closely with product owners to define technical requirements and took ownership of critical feature modules from inception to deployment.
- Designed and implemented a Model Context Protocol (MCP) server, enabling AI agents to seamlessly access project summaries and execute core functions, driving innovation in project automation.
- Operated within an Agile/Scrum environment, consistently delivering high-quality code in bi-weekly sprints.
- Improved codebase maintainability through rigorous code reviews and adherence to best practices in TypeScript and React.

Full stack developer at Atom Learning

Nov 2021 - Jan 2023

📍 London, (UK) <https://atomlearning.co.uk/>

[NodeJs](#) [ReactJs](#) [NestJs](#) [Jest](#) [Kafka](#) [AWS SQS](#) [Postgres](#)

Atom learning is The all-in-one online learning platform for ages 7-11

- Played a pivotal role as a Full Stack Engineer in the 'Post Atom' growth team, focusing on optimizing the conversion funnel from free to paid subscribers.
- Analyzed user journey data to identify friction points and implemented strategic improvements, resulting in increased user retention and subscription rates.
- Developed new premium features and payment integrations, enhancing the value proposition for parents and educators.
- Architected and maintained scalable microservices using NestJS and Kafka for asynchronous processing, alongside dynamic React frontends.
- Utilized AWS SQS for reliable message queuing and Postgres for robust data management within an Agile environment.

Full stack developer at Zenjob GmbH

Nov 2019 - Nov 2021

📍 Berlin, (Germany) <https://www.zenjob.com/>

NodeJs ReactJs NestJs Jest Java (groovy) A/B testing with Unleash Kafka AWS SQS Postgres

Zenjob is a platform which enables part-time jobbers to organize their working life freely and provides companies with motivated and flexible employees.

- Served as a Full Stack Engineer within the Talent Acquisition team, streamlining the user journey from initial signup to successful onboarding.
- Conducted A/B testing using Unleash to validate UX enhancements, driving data-informed decisions that significantly improved user acquisition metrics.
- Championed a 'digital-first' approach, ensuring a seamless and intuitive onboarding experience for thousands of part-time job seekers.
- Built and maintained high-performance microservices with NestJS and Java (Groovy), integrating with Kafka for real-time event processing.
- Collaborated with cross-functional teams to deliver robust solutions on AWS infrastructure.

Full stack developer at Digital Trons

May 2016 - Oct 2019

📍 Ahmedabad, (India) <https://www.digitaltrons.com>

NodeJs ReactJs AWS Docker RaspberryPi Postgres Mongodb

DigitalTrons is a service based company which offers solutions to startups, entrepreneurs, and growing businesses around the world, specialized in the software development.

- Led client requirement gathering sessions, translating business needs into detailed technical specifications and architectural designs.
- Designed scalable system architectures from scratch, selecting appropriate technologies (React, Node.js, Docker) to meet project goals.
- Managed project timelines and deliverables, breaking down complex features into manageable tasks and delegating effectively to the development team.
- Mentored junior developers, fostering a culture of technical excellence and continuous improvement.
- Orchestrated deployments across multiple environments using Docker and AWS, ensuring reliable CI/CD pipelines.

Full stack developer at Improwised Technology Pvt. Ltd

July 2015 - May 2016

📍 Rajkot, (India) <https://www.improwised.com>

NodeJs ReactJs D3.js Laravel Docker Mongodb

Improwised also is a service based company which is working toward its goal of empowering its clients with the cutting edge solutions and proficient services..

- Interfaced directly with clients to clarify requirements and provide regular project status updates.
- Developed interactive data visualizations using D3.js and React, enabling clients to gain actionable insights from complex datasets.
- Contributed to the development of robust backend APIs using Node.js and Laravel, ensuring data integrity and security.
- Assisted in the containerization of applications using Docker, improving development consistency and deployment efficiency.
- Coordinated with the team to ensure timely delivery of assigned tickets and maintained high code quality.

KEY PROJECTS & SECTORS

Edutech platform for Students Onboarding system for Students Flight booking system with Preference algorithm
Vending Machine UI system Task management system for Real estate industry Health coach service with Chatbot

EDUCATION (1)

Bachelors in Computer engineering at Atmiya Institute of Science and Technology

2011 - 2015

CGPA: 6.93
